

Bull In a China Shop

Manafest

Turn this up till the speakers pop
And it hits you in the chest like a thousand watts
Cause when it gets going, it's hard to stop
Just like a bull in a china shop Turn this up till the speakers pop
And it hits you in the chest like a thousand watts
Cause when it gets going, it's hard to stop
Just like a bull in a china shop You think it was the auto-boy,
The way I'm driving songs,
This dude's in my blind spot,
C'mon, get off!
My iPhone's plugged in,
Cruizin' at a hundred,
Hitting roadkill, four wills, thirty dozen.
Don't say I told ya,
Rolled on the shoulder,
Cop pulls me over,
"Kid, are you sober?"
Loaded,
