

Yet Again

Grizzly Bear

Yet again we're the only ones
No surprise, this is often how it's done
Lately it's about all I can take
I will move and mend and mold this breakShell with another crack
I'm small but I can keep track
Too soon, everyone just step away
I'm sure this isn't the last playTake it all in stride
Speak, don't confide
We barely had a case
It's done before we try
Stop and end by night
A desert in your faceTake score, even playing fields this game
I know when all's said we're the same
If I could I would leave it all be
No chance to move backwards and seeTake it all in stride
Speak, don't confide
We barely had a case
It's done before we try
Stop and end by night
A desert in your faceTake it all in stride
Speak, don't confide
We barely had a case
It's done before we try
Stop and end by night
A desert in your face
