

To and Fro

Mattafix

I had a thought of you
Insolitude without rescue.
Your Thoughts are in the pouring rain,
And you feel the way
you did before i met you.
Now I see the pain
forcing you the blame,
The only man that loved you.
Well no one more got close to before.
i'm amazed i let you.

To and fro,- Is now my thoughts would go
While I was looking for my release.
You should know,
I had to let you go
Now and forever more,
I'm out of reach.

now I see it all, right before me,
your little story.
My role was on the page
i refused to play in your tragedy
i feel no remorse
while you deal with yours.
How you feeling lately?
well no one more got,
close to me before,
lady you betrayed me.

To and fro,
Is now my thoughts would go.
While I was looking for my release.
You should know,
I had to let you go
Now and forever more,
I'm out of reach.

yeah

hence in the past tense

the sentiment,
taking arguments,
taking offense.
The only consequence
i'm left to lament,
the love that came and went.
I'm still a true gent.
Never bitter and never twisted.
Only optimistic about the main statistic.
Number one is standing
vertical cause i never,
take things personal believe me.
My woman my woman
is gone,
and so me just move on
Da linguist, this producer ,
this performer,
moulded by the pain and the trauma.
I'm on a mission
to listen
to intuition more than.
I've ever done before,
never keep the hidden.
I won't waste away
I'll wake up from day
to day and i'll face this
You're on a need to know basis

To and fro,
Is now my thoughts would go.
While I was looking for my release.
You should know,
I had to let you go
Now and forever more,
I'm out of reach.
