

# Piss It All Away

## Puddle of Mudd

What I feel it is real  
What I do it's the truth  
When I drink I can't think  
When I use I need more  
When you're weak I can't speak  
Close your eyes and taste this wine  
The cork removed less purified  
I throw away everything that you say  
Erase everything that you fake  
What I feel it's a sin  
Tell the truth do not lie  
Make a wish it will come true  
One way streets, one track mind  
Open up and see the light  
One million ways to hypnotize  
I throw away everything that you say  
Erase everything that you fake  
Erase everything that you fake  
Piss it, piss it all away  
Piss it, piss it all away  
Piss it, piss it all away  
Piss it, piss it all away  
Piss it, piss it all away  
Piss it, piss it all away  
Piss it, piss it all away  
Piss it, piss it all away
