Black Mask

The (International) Noise Conspiracy

Just give me a black mask
Just give me a black maskJust give me a black mask to explode
Just give me a black mask to overload
Just give me a black mask to lose control
Just give me a black mask to steal your soulJust give me a black mask to explode
Just give me a black mask to overload
Just give me a black mask to lose control
Just give me a black mask to steal your soulYeah! Just give me a black mask to explode
Just give me a black mask to overload
Just give me a black mask to lose control
Just give me a black mask to steal your soulJust give me a black mask to explode
Just give me a black mask to overload
Just give me a black mask to lose control
Just give me a black mask to steal your soulJust give me a black mask
Just give me a black mask
Just give me a black mask
Just give me a black mask, yeah!
