

# Sleepless Again

## In Flames

Hopeless times approach  
Just give into the chaos  
Strangely I find comfort here  
Impatient and curious of what may come And so the rampage begins  
Against the headache I can't win  
(Drain me)  
Keep me in the dark  
I don't want to take part  
Prefer to be forever numb Nothing great can come out of this  
I'm a hostage to myself  
I fear I might collapse on the razor's edge  
And I fear I'll realize when it's too late And so the rampage begins  
Against the headache I can't win  
(Drain me)  
Keep me in the dark  
I don't want to take part  
Prefer to be forever numb Sleepless again  
I need to ease my mind  
And kill what burns inside  
Sleepless again I can't win  
(Drain me)  
Keep me in the dark  
I don't want to take part  
Prefer to be forever numb
