Heart Of The Brave

Freedom Call

Born in a nation
A young generation
Is praying for salvation
Out of damnationWhen the power's rising
Light fades the shadows away
Far beyond the gates of time
A revolution's calling
The power of freedom so devine

Saves us all from falling downVoices from an ancient time

A prayer for the dying

A call for rebellion in the night

The lost souls are cryingTake my hand and fly away across the endless skies

Heal my soul, light my heart

The time will wash my sins away

I'll bury all the liesTake the power and fight for the brave

And the power of freedom remains I'm riding across the endless skies

And I am watching the spirits flying

The time has come to fight

Brave at heart I'm dyingTake my hand and fly away across the endless skies

Heal my soul, light my heart

I'll find the way to paradise

I'll bury all the lies[Chorus]Praise the lord of the glorious land

Time for me to understand I believe in the sign he sent Fame and glory I defend
