

# Sick.

## DempseyRollBoy

[Chorus]

I'm just getting done waiting for the sickness to take me away  
And I'll fight it, I don't need no more, when I already got it

[Verse 1]

Already dead inside I commit suicide  
Every night when I break a new seal  
I run away from myself every chance that I get  
Cuz it's easy, It's too hard to heal  
Never accepted by anyone ever  
But f\*ck all them people and f\*ck how they feel  
Exhausted I'm tired, don't wanna keep going  
I flirt with the Percocet, Xanax and steel

[Pre-Chorus]

I make the room spin  
By now, I'm used to it's sickening movement  
It's an illusion  
It's a reminder that my time is looming  
Hardly a human  
I'm just a vessel, the chemicals use me  
It's so confusing  
Did I choose them? I don't know, did they choose me?

[Chorus]

I'm just getting done waiting for the sickness to take me away  
And I'll fight it, I don't need no more, when I already got it

[Verse 2]

Controlled like a voodoo doll, life's sticking pins in me  
Cursed, I deserve it, I don't want your sympathy  
No going back, I can't do no sh\*t differently  
Can't help but laugh, what the hell's gotten into me?  
My imperfections, twisted obsessions  
Manic depression, thousands of questions  
Sad adolescence, bad first impressions  
Big disconnections, valuable lessons  
Why do I constantly have to start over?  
For once in my life, can I finally have closure?  
For once in my life, can I keep my composure?

I stay f\*cking up and I never stay sober  
Was I always meant to be just mediocre?  
At this rate I'm finished, Iâ€™ll never get older  
Internal fight with myself, Iâ€™m bipolar  
I walk a fine line between chaos and order

[Chorus]

I'm just getting done waiting for the sickness to take me away  
And I'll fight it, I don't need no more, when I already got it

[Verse 3]

I'm throwing up words  
Cuz I can't stomach the things that I'm thinking and feeling  
Don't wanna reveal all the secrets I'm keeping  
But if I don't do this, my heart won't start beating  
Pills put me to sleep but they made me stop dreaming  
Defeated, Iâ€™m weak in a war without reason  
I'm blind when I drink, I don't know what I'm seeing  
I'm right on the brink on the edge, Iâ€™ve been feening

[Pre-Chorus]

I make the room spin  
By now, I'm used to it's sickening movement  
It's an illusion  
It's a reminder that my time is looming  
Hardly a human  
I'm just a vessel, the chemicals use me  
It's so confusing  
Did I choose them? I don't know, did they choose me?

[Chorus]

I'm just getting done waiting for the sickness to take me away  
And I'll fight it, I don't need no more, when I already got it

[Outro]

DempseyRollBoy  
In a world of my own  
Yeah
