## Carpathian Forest

As the decades and centuries rolled by  
Most of the christians no longer thought  
That the second coming of christ  
Would take place in their own lifetime They firmly believed  
The awaited return of jesus christ  
To earth in order to judge  
The living and the dead But they thought its possible  
That these holy events  
Might not come to pass  
For hundreds or thousands of years On the basis of a complex numerical  
Calculations involving the symbolic  
Interpretation of the so called  
Book of truth Still the preachers of our modern age  
Which prophecies claimed true  
Admit and coness your pathetic sin  
Then you kneel and let the brainwash begin The world will be swept by war and plagues  
All evil will control humanity  
Many will follow the beast 666  
And take up arms against christ  
The battle of armageddon is near Apocalypse pestilence war famine and death  
The demons of finality  
From the sky they came  
As written in biblical times  
The vision of the destruction fo earth  
The future is dark and violent  
Carpathian Forest wants you dead, DEAD!
