

Set It Off

Ventura Lights

Should have been a warning
Should have seen you coming
I'll get a better look this time
So let's set it off And when it comes morning
They're gonna see you runnin'
So it's better luck next time Should have been a warning
Should have seen you coming
I'll get a better look this time
So let's set it off And when it comes morning
They're gonna see you runnin'
So it's better luck next time
'Cos I'm settin' it off You were choking my life
I found new breath
Filling my lungs with your defeat
Standing here now it's easy to see
Without you I'm complete Now I'm at the ready
My hands are strong and steady
Taking my second chances
I will set it off Leaving it all now
With a fire stirring
And this world left burning
So let's set it off Now I'm at the ready
My hands are strong and steady
Taking my second chances
I will set it off Leaving it all now
With a fire stirring
And this world left burning
So let's set it off You were choking my life
I found new breath
Filling my lungs with your defeat
Standing here now it's easy to see
Without you I'm complete Gonna set it
Off
Gonna set it
Off
Right now Let's set it off
Let's set it off We came to set it off (x3)
Let's set it off i»¿
