

Other Things

Angus & Julia Stone

Go put the cat outside x3Cause we've got things to doThere's other things on my (your) mind

There's other things on my (your) mind

There's other things on my (your) mind

So close the fucking doorI'll see ya later, tomorrow x3I'll see ya laterThere's a plane in the sky

There's a plane in the sky

There's a plane in the sky

If those people fall they will dieThere's other things on my (your) mind

There's other things on my (your) mind

There's other things on my (your) mind

So close the fucking doorI'll see ya later, tomorrow x3I'll see ya later x5
