

I'm Just Here

Alice Russell

I can hear talking
The TVs, streets, of night
Thinking of what they said
Everything is getting me down

I'm passing the park
Where the couples meet friends
Times I see endlessly
Memories getting me down

I walk to the light
But the shadows are east of me
Something was said to me
Days they are getting me down

Feeling it's finally time
You reminded me
Autumn the leaves will leave
Empty traces for the ground

Oooh?.

Blossoms
She leaves her trail
But autumn
Rests upon my
I close my eyes
For a moment
I can
I close my eyes
Silence the gift of speech

Chorus:
It makes me see
It makes me feel
I'm just here
Rest a little while
Now I can breathe
It makes me feel
I'm just here

Resting a while

From moonrise to sundown

I will make my fear

Soft as (?)

Of the promises

I taste my tears

And my silence runs far away

Tomorrow's high

The twilight of the day

Chorus

The willows

It bends deep inside of me

The secrets does he keep

So then why, so why

He has seen

And now I say

Oh why (?) ? in my dream

Chorus
