

# Star Storm

## UFO

Lost myself in a distant starry storm  
Trying to find my way down  
Somebody shut child a door in my head  
Had to turn aroundBut I gotta little time to set by  
Gotta let my feelings all shine  
You know that it will be all right  
I gotta get your love for just mineFound a starry storm it held me close,Tryin' to find my way home  
Took a distant walk in a starry mile  
Had to turn and smileBut I gotta little time to let my  
Gotta let my feelings all fly  
You know that it will be all right  
Gotta get your love for just mineHold on fast gonna catch a shooting star  
Gotta find me a way  
Get from this starry storm today  
Never leave this placeBut I gotta little time to let fly  
Gotta let my feelings oh shine  
You know that it will be all right  
Gotta get your loving just rightInstrumentalFound a starry storm held me close  
Take me back today  
All I want to do is fly away  
Really couldn't sayBut I gotta little time to set by  
Gotta let my feelings all shine  
You know that it will be all right  
Gotta get your loving just rightLost myself by heaven's chance  
Trying to find a way down  
Took a distance walk in a starry mile  
Had to turn and smileBut I gotta little time to let fly  
Gotta let my feelings oh shine  
You know that it will be oh right  
Gotta get your loving just fine
