

# Kill Theme for American Apeshit

## Agoraphobic Nosebleed

eucharist bagged like dixie cups.  
in a chinese grocery, net to the fucking wontons.  
a strong pimp hand loosens the fronts and widens the gap.  
same pliers used in a nose job on another whore. fuck it!  
im fucked up lets do this shit.  
every person in here is dead - for no good reason - right fucking now.
