Still I'm Sad

Dokken

You were the one on the trigger
Deciding the fate of us all
Testing my fate in religion
Tryin to make sense of it all
All hope was lost, I found reason
To look in your eyes and find something
The promise you gave was that you'd remain,
Not leave me here and go missin
I've been the one in the shadows
Watching your life through a window
When you open your eyes and feel me inside you
why would you leave me for others
Wait for me, I'll come for you
Wait for me, can't you see I'm still sad
I'm still I'm sad
All hope was lost, I found reason
To look in your eyes and find something
It's was like two days apart
From the truth
Was my soul the piece you been missin
You've got the gun pull the trigger
Strait to the heart of the matter
If it's all been in vain why do I remain
Watchin you leave me for others
Wait for me, I'll come for you
Wait for me, this day is not through

Wait for me, it's about time were through
Wait for me, can't you see I'm still sad
Still I'm sad
Wait for me, I'll come for you
Wait for me, this day is not through
Wait for me, it's about time we through
Wait for me, can't you see I'm still sad
Still I'm sad
Still I'm sad
Still I'm sad
Still I'm sad
Watch your life through your window

Shadows fall
As the darkness falls to gray
