Seasons

Heart

One heart can make a difference
One choice can change it all
One voice can travel the distance
And be heard all around the worldWould you make a sacrifice
If you knew that it was right?
Well the answers there if you look inside
Will you run and hide or will you fight the fight?Cause there's a power inside you
And there's a battle to be won
And every victory has a beginning
The way it always has begun
With the power of oneYeah yeah yeah yeahOne day, you'll realize it
That one hope is all you need
One dream that we can all share
One dream we all believeAnd we will make that sacrifice
Just becasue we know it's right
And we will face the answer that's there inside
We won't run and hide
We're gonna fight the fightThere's a power inside you (inside you)
There's a battle to be won (be won, be won)
Every victory has a beginning
The way it always has begun
With the power of one
With the power of oneYeahWe'll look inside
We won't run and hide
No, we'll fight the fightThere's a power inside you (can you feel the power,
can you feel it, feel it)
There's a battle to be one (battle to be won)
Every victory has a beginning
The way it always has begun
With the power of one
