

Loaded Gun

Black Rebel Motorcycle Club

The lost generation's taking hold
The last generation keeping score
Gonna wanna know who they're working for
You're gonna wanna know who you're working for You're living like a loaded gun
You better show your hands The lost generation's keeping score
The last generation taking holes
Gonna wanna know who they're working for
You're gonna wanna know who you're working for You're living like a loaded gun
You better show your hands
