

# An Old Wyoming Song

## Eighteen Visions

Read, learn, love, hate, fist, fuck, remember, rape  
Flesh, burn, scar, murder, innocent, cry, laugh  
Face, smash, kill the smile, bones broken  
Wounds heal, die, memories gone You couldn't suffer on an angels wing today  
It slowly drains you, paralyzing cancer  
It's hard to let go and it broke you down  
Look into your oblivion, I turn away Weakness your desire, I have no strength  
Left to face you, to face you Deformed reflections, that of a broken man  
With a broken addiction, yeah  
A broken soul, your broken hope  
Your broken hope, your broken hope Lifeless, lifeless, dead, lifeless, lifeless, dead  
Lifeless, lifeless, dead, lifeless, lifeless, dead Black mind insanity  
Absent thoughts to nosebleed  
Black mind insanity  
Absent thoughts to nosebleed A broken soul, your broken hope  
Your broken hope, your broken hope Break this silence, breath of  
Dead angel has spoken forevermore  
Break this silence, breath of  
Dead angel has spoken forevermore [Incomprehensible] Break this silence, breath of  
Dead angel has spoken forevermore  
Break this silence, breath of dead angel
