All There Is

Mansions On The Moon

you got a light and you'll keep it on
'til somebody stares
'til somebody notices it
'til somebody cares
but I love the dark parts of your heart
yet you hide them all away
do you think if no one notices them
someday they may fade?no one said you gotta love the life that you live now
but if you don't love it get up and change it
and if you don't love the job that you're in now
well do what you love that's all that there is
no one said you gotta love the life that you live now
but if you don't love it get up and change it
and if you don't love the job that you're in now
well do what you love that's all that there isyou had a dream when you were young
but you through it all away
did you think its might be impossible?
did you try to play it safe?
but i see the hope there behind your eyes
and the dream that didn't die
do you still think its all out of your reach?
its not too late to tryno one said you gotta love the life that you live now
but if you don't love it get up and change it
and if you don't love the job that you're in now
well do what you love that's all that there is
no one said you gotta love the life that you live now
but if you don't love it get up and change it
and if you don't love the job that you're in now
well do what you love that's all that there isdon't let the days go by
you're running out of time
don't let the days go by
you're running out of time
and you only get to live one lifedon't let the days go by
you're running out of time
don't let the days go by
you're running out of time
and you only get to live one lifereprise:don't let the days go by
you're running out of time
don't let the days go by

you're running out of time
and you only get to live one life
