

Good to Go to Mexico

[Toby Keith](#)

I can feel a chill of a cold November wind
Here in Oklahoma that means that it's winter time again
Everytime I think 'bout the rain and sleet and snow
I start dreamin' 'bout siestas underneath this sombrero
Baby, if you're good to go we'll go down to Mexico
Get a place in Cabo, kick back in the sand
It'll be just you and me and a moonlight dancing on the sea
To the Spanish guitar melody of a Mariachi band
I got two tickets bought there won't be no second thoughts
The weather's always nice down there in paradise
We'll find that little man who owns that taco stand
We'll be drinking margaritas while we're working on our tan
So baby if you're good to go we'll go down to
Mexico
And get a place in Cabo, kick back in the sand
If you'll get off that telephone and put your shorts and sandals on
Tomorrow we'll be dancing to a Mariachi band
Cancun don't get me high, that's where the snowbirds fly
They like to winter there, man they come from everywhere
I'll take the baja sun, it ain't overrun
With all the gringos and the turistas we might be the only ones
So baby, if you're good to go we'll go down to
Mexico
And get a place in Cabo, kick back in the sand
It'll be just you and me and a moonlight dancing on the sea
To the Spanish guitar melody of a Mariachi band
Baby, if you're good to go we'll go down to Mexico
And get a place in Cabo, kick back in the sand
It'll be just you and me and a moonlight dancing on the sea
To the Spanish guitar melody of a Mariachi band
The Spanish guitar melody of a Mariachi band
