Maybe This Time

Ella May Saison

What do you if he's waiting for you?
You're not ready, you're not ready to take a chance again
You seem scared to find a lover again
Made a mistake once before
Can't afford to make anymore

II

But if I gave it a try
Would I not say oh my, oh my
'Coz it seems to never ever pays to take a chance

Chorus

But maybe this time
Will be a better chance for us
Maybe this time it's gonna be something real
It's been madness all the way
But maybe faith has change the ways
And I hope this time it proves to be something true, something true

What do you do?
When he starts caring for you
Do you accept it, or do you say you have to be on your own
You seem scared to depend on someone else
And I hate this feeling I get
Knowing one day that someone might be gone

Repeat II and Chorus 2x

Wooh,
Woooh but maybe this time
Will be a better chance for us
Maybe this time it's gonna be something real
It's been madness all the way
But maybe faith has change the ways
And I hope this time it proves to be something true

Oh maybe this time
Will be a better chance for us

Maybe this time it's gonna be something real
It's been madness all the way
But maybe faith has change the ways
And I hope this time it proves to be
And I hope this time proves to be true
