Lullaby

GENTRI

Lullaby
Gently, close your eyes so gently
see the dancing starlight, worlds away.
softly, angels whisper, softly,
hear the lullaby sing. drift away.
and I will guard you while your sleeping
and I will be here awaiting when you wake
let this peace set you free
and sweetly rest
sailing through the sky your sailing chase the moon til sunrise wakes the day
and I will guard you while you're sleeping
and I will be here waiting
when you wake
let this peace
set you free and
sweetly rest
let this peace
set you free and
sweetly rest
gently
close your eyes so gently
see the dancing starlight worlds away
