

Nothing at All

Darkbuster

So your tired, You've been beat up
Your lying face down on the floor
You dont worry what you look like
You smell like shit and alchol

And you've got no friends You've Been Left With Nothing At All So your tired, You've been beat up
Your lying face down on the floor
You dont worry what you look like
You smell like shit and alchol

And you've got no friends You've Been Left With Nothing At All
You've Been Left With Nothing At All
You've Been Left With Nothing At All

And you've got no friends So your lying in your room and
Your waiting by your telephone
You dont wonder why your home
Your just wondering why your all alone

And you've got no friends You've Been Left With Nothing At All
You've Been Left With Nothing At All
You've Been Left With Nothing At All

And you aint got no, you aint got no friends
You've been left with nothing at...
Left with nothing at all
Left with nothing at all
Left with nothing at all
Left with nothing at all

And you aint got no, you aint got no friends
You've been left with nothing at all
