

Loved by U (feat. Ria)

[Melih Aydogan](#)

Wanna be loved by you
Wanna be loved by you You told me to believe
You told me to leave
What do you mean it
Where I can go
You told me to move
You told me to go
How can I live
Without our love There is something on my way that I can't ignore
Yeah it's OK but my heart is like never before
There is something on my way that I can't fix it
Yeah you know this love is hard but I can't never risk it
Babe can you hear me
Babe can you hear me
Babe can you hold me
Tonight I'm falling for you You told me to believe
You told me to leave
What do you mean it
Where I can go
You told me to move
You told me to go
How can I live
Without our love Wanna be loved by you
Wanna be loved by you
You told me to believe
You told me to leave
What do you mean it
Where I can go
You told me to move
You told me to go
How can I live
Without our love
