

# The Stayin'

Bryan White

She got butterflies, you've got 'em too  
You look into her eyes and it's quite a view  
You see forever, all mapped out  
Well, I hope you know what you're talking about  
It ain't the fallin' in love that pulls you through  
When the times get tough, what you gonna do?  
To make it last day out and day in  
'Cause it ain't the falling in love, it's the stayin'  
You call each others' faults endearing traits  
Until the day they all start to irritate  
And when the new is getting gone  
That's when you learn how to keep hangin' on  
It ain't the fallin' in love that pulls you through  
When the times get tough, what you gonna do?  
To make it last day out and day in  
It ain't the falling in love, it's the stayin'  
Through the in's and out's  
Through the waves of doubt  
That's what love's about  
It ain't the fallin' in love that pulls you through  
When the times get tough, what you gonna do?  
To make it last day out and day in  
It ain't the falling in love, it's the stayin'  
It's stayin', it's the stayin'
