

# Stupid Kid.

## Alkaline Trio

There are things that used to make me smile  
One of them was you for just a little while  
You left me for dead so far away  
I replaced you with fear and shame  
You'll be happy on the day I die  
There are things that used to make me laugh  
But now they're deeply buried in the past  
I left them there so far away  
Replaced my humor with my pain  
I'll be happy on the day it dies  
Remember when I said, "I love you"?  
Well forget it, I take it back  
I was just a stupid kid back then  
I take back every word that I said  
There are things that used to make you cry  
One of them was me for just a little while  
Why is it that you had to say?  
Goodbye in your special way  
You slashed the tires on my car  
Remember when I said, "I love you"?  
Well forget it, I take it back  
I was just a stupid kid back then  
I take back every word that I said  
Remember when I said, "I love you"?  
Well forget it, I take it back  
I was just a stupid kid back then  
I take back every word that I said
