

You Donâ€™t Love Me Like You Should

Hey Violet

We were wings and fire
Burning circles in the sky
You and I Lately I'm defeated
Wantin' you to read my mind
But you don't try
Are we dead or half asleep Love me right or baby it's time to leave You better wake up soon and realize
'Cause I feel misunderstood
You don't love me like you should
You don't love me like you should Got a heart that wants to vandalize
And run away from you for good
You don't love me like you should
You don't love me like you
Love me like you should Woahoaohoa We had break and makeups
Up and down, on and off
Switchin' me like a light
That ain't right, (uh uh)
Drove me straight to madness
Dropped at the corner of pain and agony
Just to bleed And I don't care what makes you tick
All this back and forth it makes me sick! You better wake up soon and realize
'Cause I feel misunderstood
You don't love me like you should
You don't love me like you should Got a heart that wants to vandalize
And run away from you for good
You don't love me like you should
You don't love me like you
Love me like you should Woahoaohoa And I don't care what makes you tick
All this back and forth it makes me sick! One, Two
One, Two, Three, Four You better wake up soon and realize
'Cause I feel misunderstood
You don't love me like you should
You don't love me like you should Got a heart that wants to vandalize
And run away from you for good
You don't love me like you should
You don't love me like you
Love me like you should Woahoaohoa Love me like you should
You don't love me like you should
You don't love me like you should
You don't love me, don't love me,

Don't love me like you should
