Spin

Darren Hayes

Governments elected nobody votes
Politically correct isn't that a joke?
We censor music then give children guns
On CNN
Still fightin' to death over Jerusalem
Four letter disease still makes us run
Can't comprehend that you can die from loveCan I start things over and change your mind?
Can I sing a melody, press rewind?
Can I move your feet make your heart skip a beat?
Can a simple tune flow through you?When the music feels like this
When you lose control you gotta go with it
Ten feet high
Flyin' above the sky
Your problems don't exist
When music feels like thisNo money left in Africa
Starvin' to death in Bosnia
We close our eyes and hide a nation cries
And in the west
TV possessed and weight obsessed
The media dissects, infects
We think real life is reality TVCan I have your attention and press rewind
When the D.J. spins, will it change your mind?
Can I move your feet, make your heart skip a beat
Can a piece of me flow through you?When the music feels like this
When you lose control you gotta go with it
Ten feet high
Flyin' above the sky
Your problems don't exist
When music feels like thisWhen the music feels like this
D.J. take control
And grab a hold of me
Spin that wheel
Tell me how to feel
I like the shape I'm in
When music feels like thisBringin' the beat back
Stompin' the floor
Dancin' like a booty never bounced before
Poppin' to the back beat
Up on the one

Smack Jack freakin' now you're overcomeWhen the music feels like this
When you lose control you gotta go with it
Ten feet high
Flyin' above the sky
Your problems don't exist
When music feels like thisWhen the music feels like this
D.J. take control
And grab a hold of me
Spin that wheel
And tell me how to feel
I like the shape I'm in
When music feels like thisWhen the music feels like this
When the music feels like this
When the music feels like this
...
