

# Starfleet Signs My Check

## Warp 11

I got my spaceman suit  
And my gravity boots  
I'm stuck walking the hull  
With a pounding in my skull  
Ain't nobody knows  
Which way the solar wind blows  
Better than a man  
Bein' blown

And the alien lover that I knew so well  
After an hour or two told me to  
Go to hell  
And now that it's through  
I got better things to do  
Like swab the holodeck  
'Cause Starfleet signs my check

I got my phaser set  
But I don't know how to use it yet  
I gotta get gone  
Transporter lock on  
I almost lost my ass  
On a hostile M-Class

And the Klingon I thought that I knew so well  
After an hour or two told me to  
Go to hell  
And now that he's through  
I'm stuck in sick bay with you  
With a broken neck  
'Cause Starfleet signs my check

This debriefing's gonna hurt  
They'll strip me of my red shirt  
I'll get a new one ripped soon  
In the captain's red room

(Again)

And the captain I thought that I knew so well  
After an hour or two told me to

Go to hell  
And now that it's through  
I'll keep doing what I do  
On a five-year trek  
'Cause Starfleet signs my check

They sign my fuckin' check  
Did I mention my check?
