Take Me Like I Am

Johnny Horton

I'm living on the other side of the track it's true
But like it or not I'm just as good as you
If I see you coming with your head held so high
Don't you worry 'bout me speakin', I'll pass you right on byThis world is full of money, but I haven't got a dime
Had a million heartaches, but I'm happy all the time
I can be like a tiger or as meek as a lamb
If you wanna get along with me, you'll take me like I amYou can talk about your fancy friends and your millionaires
I may not have their money, but I don't have their cares
You can live in a mansion set up on a golden throne
But all these things you have in life, are gonna vanish when I'm goneThis world is full of money, but I haven't got a dime
Had a million heartaches, but I'm happy all the time
I can be like a tiger or as meek as a lamb
If you wanna get along with me, you'll take me like I am
