

# Everything To Me

Fred Hammond

My future and my history  
My freedom and my liberty  
My strength my joy  
My life, my peace  
Oh Lord You're everything to me My flame, my light  
My lamp, my heat  
Brighten my path to guide my feet  
Anoint my head and fill my cup  
Oh Lord You're everything to me Everything to me (everything to me)  
Everything to me (everything to me)  
EverythingÂ (everything to me)  
Everything (everything to me) When I felt lost and alone  
You came and changed my story  
On the pages of my life  
You have revealed Your glory  
Oh Lord You're everything to me My start, my now  
My close, my end  
The Lover of my soul, my friend  
Oh Lord You are my everything  
My Father, God  
My Lord and King You heal and cause  
Life to increase  
You are the cure for my disease  
My purpose and my destiny  
Oh Lord You're everything to me Everything (everything to me)  
Everything to me (everything to me)  
Everything (everything to me)  
Everything (everything to me) When I felt lost and alone  
You came and changed my story  
On the pages of my life  
You have revealed Your glory  
Oh Lord You're everythingÂ My start, my now  
My close, my end  
The Lover of my soul, my friend  
Oh Lord You are my everything  
My Father, God  
My Lord and King You heal and cause  
Life to increase  
You are the cure for my disease

My purpose and my destiny  
Oh Lord You're everything to me Everything to me (everything to me)  
Everything to me (everything to me)  
Everything to me (everything to me)  
Everything to me (everything to me) Everything to me (everything to me)  
(everything to me)(everything to me)  
Everything to me (everything to me)  
(everything to me)  
Lord you are (everything to me)  
Everything to me (everything to me)  
Lord you are (everything to me)  
Lord you are (everything to me)
