

Better Than Sex

Tyrese

I've had my share of women
From Japan all the way to Brazil
Never thought I'd find a woman
To make this rolling stone stop and just chill
Out of all of my relationships, girl, I must admit
That you were the first to give me all of you, babe
Now I got everything that a man could ever dream
You got, you got what I need
Girl, I've had a one night stand, girl
You just might be wifey
Then I've had a threesome, I swear
You're more than enough
If it wasn't for you I'd still be out doing my thing
You're the only thing I do
You've been my best of everything
Oh, girl better than sex
Can't lie, I wasn't even looking
Then you walked right in my sight
I was doing me everyday pimping
Then you came and you pimped my life
Out of all of my relationships, girl, I must admit
That you were the first to give me all of you, babe
Now I got everything that a man could ever dream
You got, you got what I need
Girl, I've had a one night stand, girl
You just might be wifey
Then I've had a threesome, I swear
You're more than enough
If it wasn't for you I'd still be out doing my thing
You're the only thing I do
You've been my best of everything
Oh, girl better than sex
Girl, I never thought the day would come
That I wanna share my things but I finally got one
I swear for God, girl, you're the right one
And I put that on everything I love
I would trade all those nights
With them other girls
'Cuz there ain't no tail worth giving up
What I got with you
I've had a one night stand, girl
You just might be wifey
Then I've had a threesome, I swear
You're more than enough
If it wasn't for you I'd still be out doing my thing
You're the only thing I do
You've been my best of everything
Oh, girl, better than sex
Into everything about you girl
Don't think that I can live without you girl
You're 'bout as good as it gets

So much better than sex, better than sex I'm into every lil' thing about you
Oh, I don't think that I can live
Ain't nothing better
Sex is good but ain't nothing better than you I seen you
Staring at me and I was staring right back at you
I think this is gonna be
Better than sex
