

# Two Faces

## Bruce Springsteen

I met a girl and we ran away  
I swore I'd make her happy every day  
And how I made her cry  
Tears of joy and tears of blood  
Her that suffered so, who loves me so  
Two faces have I  
One that is giving, one that is taking Sometimes mister I feel sunny and wild  
Lord I love to see my baby smile  
Then dark clouds come rolling by  
Two faces have I One that laughs and one that gets mad  
One says hello one says get lost  
One that is tender One that is cruel  
One does things I don't understand  
told her i loved her and then threatened to slap her  
I'm a two-faced boy  
Never listens not really interested always repeats  
Makes me feel like half a man  
Though she sees me as a gentleman and treats me like the man I should be to be worthy of her At night I work  
on my photo projects  
Our love will make that other side of me go away  
But it'll never say goodbye  
She will say goodbye if he that side stays  
Two faces have I, and the only way  
is to be a better man
