One

Vince Gill

Every little whisper every little sound
Brings me comfort whenever you're around
A heart full of wonder and sweet reverie
Gives me a reason a reason to believe[Chorus]
Forever's just begun
We'll never turn and run
Slowly we've become
One, oneSlowly we've become one
I love the way we're different
And the way we're the same
Making love to each other
Is like shelter from the rainIsn't it amazing
What I see in your eyes
I'll be your partner
And never leave your side[Chorus]
