My Ship

Thermostatic

Like the echoes in your mind..
You try to leave them all behind..
All behind..You wonder when this dream will end..
So many questions remained unsung..
???What happens when you realize this ship is going under? (3x)You waste your time doing things
You don't want
Stop wasting your time doing things
You don't wantYou waste your time doing things
You don't want
Stop waste your time doing things
You don't want(You waste your time)
(You waste your time)
(You waste your time)
(You waste your time)
(You waste your time)
(You waste your time)
(You waste your time)
(You waste your time)
(You waste your time)
