

Parasitic Flesh Resection (live)

Aborted

[Music: Thijs, Lyrics: Sven]A quick grasp of insanity, cranial tissue in decay
A force fed tool of apathy i am
Parasitic life form, infesting my whole being
Necrotic fungus resecting organs to create...From the realm of the dead I'm fed
Cracking open the coffin lidDriven by a hunger, unable to grasp
A chemical reaction that compels me to grab
The axe, anxiously removed from its shelf
With an unpredecessor joy I brutally hackPsychonecrotic hallucinations,
as my skull begins to reek
With goreastic elegance I purge the weakParasitic life form
Rehashing the dead for its cause
The chopping of heads
A daily act of self-enjoymentCranial metamorphosis,
A forensic decrepit anomaly
Intestines turn into pulp
Axe wielding among the stiff
Parasitic resection...
