

# Bobby Gentry

## Beth Orton

Blue and you lean on me, you know that your crushin' me  
You're soaking and I cannot breathe  
You're seedin' the clouds, you're buildin' a web 'cross the night  
An unusual night meant for me  
Collectin' dead rainbows from puddles and mires  
Takin' them home to warm by the fire  
This flower's in bloom, it'll never expire  
It's just comin' 'round again  
I'm tearin' my heart from the seams  
I keep tearin' my heart on the seams  
But I'll keep pushin' ya 'cause I know just where you're going  
Yeah, I'll be pushin' ya till it's too far to get back home  
Won't put my soul on strike 'cause at the speed of light  
I can do what I like  
Blue and you lean on me, you know that your crushin' me  
You're soakin' but still I can breathe

You're seedin' the clouds, you're buildin' a web 'cross the night  
Saved by unusual daydreamin' ways  
I'm tearin' my heart from the seams  
I keep tearin' my heart at the seams  
But I'll keep pushin' ya 'cause I know just where you're goin'  
Yeah, I'll be pushin' ya till it's too far to get back home  
Won't put my soul on strike 'cause at the speed of light  
I can do what I like  
Yeah, I'll be lovin' ya like it's all I've ever known  
Yeah, I'll be givin' ya till it's too far to get back home  
I'll put my heart on strike 'cause at the speed of light  
I can be out of sight  
Yeah, I'll be lovin' ya like it's all I've ever known  
Yeah I'll be lovin' ya till it's too far to get back home  
Won't put my soul on strike 'cause at the speed of light  
I can do what I like, yeah
