

Scream

In Flames

We are ordinary people,
We all live different lives
In the end we're pretty much the same
We're just living in different lies
We just live in different lies! [x2]
They scream, You scream, I scream
We scream but no one listens
Abuse to feel superior,
Is it working for you?

They scream, You scream, I scream
We scream but no one listens
Abuse to feel superior,
Is it working for you?
We are ordinary people,
In a world build on stress
When we build walls around us
We end up in a mess
