In The Ashes

Greeley Estates

At night do you lie awake
And think about our secret?
I'm haunted, I'm haunted
I'm haunted by the past

It's no one's fault, we just got really scared
It's in the dirt now, we'll just leave it there
And try to forget this, we'll never speak of it
We'll never tell a soul

My darling, do you ever close your eyes
And wonder why I did it?
I did it, I did it
I did it for your love

It's no one's fault, we just got really scared
It's in the dirt now, we'll just leave it there
And try to forget this, we'll never speak of it
We'll never tell a soul

Listen, if they come looking
You were never there
And know this, that if it comes to that
I'll take the fall

Leave it behind
It's in the ashes, it's in the ashes
We'll start our new lives
It's in the ashes, it's in the ashes

I'm not sure if we could
Ever seek forgiveness
When all I feel
Is the weight of my sin
