

Brother

The Madden Brothers

One night when I was driving
From the place I used to go
Saw a pair of head lights
And a car I didn't know I pulled over, asked the driver
Hey man, where you going?
He said, I don't know
But I need to get there You see, this truck is all but broken
And my life is just the same
How do I even bother?
When my kid's don't know my name I'm not trying to make excuses
Don't wanna pass on all the blame
But I don't know
How did I get here?? He said
Say a prayer
For me now
Won't you brother? I'm so lost
Say it loud
Like my mother I can't speak
I'm too proud
Like my father Say a prayer
For me now
Won't you brother? So we drove a little further
To a place I'd been before
Like cold water it hit me
When he opened up the door To a small house in the country
There were pictures on the wall
Of places I remember
And people I recall He said, son you're nothing like me
But I'm so glad that you're here
Then he cried and said, I'm sorry
And I've missed you all these years And I don't know
How did we get here?
Before you go
Can we just sit here? He said
Say a prayer
For me now
Won't you brother? I'm so lost
Say it loud
Like my mother I can't speak

I'm too proud
Like my father Say a prayer
For me now
Won't you brother? *Instrumental* He said
Say a prayer
For me now
Won't you brother? I'm so lost
Say it loud
Like my mother I can't speak
I'm too proud
Like my father Say a prayer
For me now
Won't you brother? He said
Say a prayer
For me now
Won't you brother? I'm so lost
Say it loud
Like my mother I can't speak
I'm too proud
Like my father Say a prayer
For me now
Won't you brother?
