Vacation

Katy Rose

Oh I don't need an education

Just a microphone's intoxication

I can't deal with concentration

Give me tongues and stimulationWho are you to know my story

Who are you to read my book

I don't think you know how crazy people say I am

You're running in the deep end, Katy why don't you give a damn?I've lost all sense of navigation

But got my Cali-Fornication

Don't give me words of hard degration

I only accept infatuationI'm a fragile kind of glass

I won't wear your stupid mask

I don't think you know how crazy people say I am

You're running in the deep end Katy why don't you give a damn?
