Touch

Wave

Here I sit alone
Thinkin bout today
Theres things I should have done
Things I didn't say
I never thought it would start into a fight
I know how you must feel tonight
I'll do anything to make it right
I was caught up in a rush
I never knew how muchChorus:
I need your touch
Can't get enough
Can't let you get away
Together we fit so perfectly
When you touch me that way
It's more than words can saythe days are passing by
time is moving slow, so slow
I've got nowhere to turn
I've got nowhere to go
I try to tell myself I'm doing fine
I've been over this a million times
I try to hide it but I'm loosin my mind
I wanna win your trust
I never knew how much(Chorus)What are you thinking
Do you feel the same as me
Why can't we go back
To where we used to beI need your touch
Can't get enough
Don't let you get away
Together we fit so perfectly
Don't let it slip away
There'll be a better day
And if I had my way
This is what you'd sayI need your touch
Can't get enough
Can't let you get away
Together we fit so perfectly
I'll never let you get away
I need your touch [I need your touch]
Can't get enough

Won't let you get away [I'll never let you get away]
I need your touch
Can't get enough
Won't let you get away [Ooo yeah yeah baby]
