

# Is It Possible

[Raheem DeV Vaughn](#)

Question, can a smile lead to a hello?  
And a hello lead to a first date?  
And a first date to a can't wait to do it again?  
Ain't no pressure can just let love develop?  
Get to know one another from a sister to a brother? I'm just wondering  
I'm just wondering  
If we start as friends  
I'm just wondering If you have a man  
I'm just wondering  
If I could be around, permanent  
How can I get down? I'm just wondering  
What do you see when you look at me?  
In your beliefs, do dreams come true?  
'Cause I dream of you, of holding you  
I'm wondering Is it possible for you to see  
That maybe you and I could be?  
Is it possible for you to see  
That maybe you said I could be? Say it's possible for you to see  
That maybe you and I could be  
Is it possible to be logical  
For you to see that we could be? Patience, I was born with plenty  
So if and when you're ready  
Have some faith girl  
And we can step out on faith 'Cause baby I'm not your everyday  
Average man spittin' everyday average lust  
Or rehearse girl, I speak the truth at all times So if you're wonderin' this is too far fetched  
If you're wonderin', this is no conquest  
To love you, then leave you there  
So I'm wondering, wondering Is it possible for you to see  
That maybe you and I could be?  
Is it possible for you to see  
That maybe you said I could be? Say it's possible for you to see  
That maybe you and I could be  
Is it possible to be logical  
For you to see that we could be? Is it possible?  
Oh say, say it, say it  
Oh, baby  
Baby, I want to know, oh Is it possible for you to see  
That maybe you and I could be?

Is it possible for you to see  
That maybe you said I could be? Say it's possible for you to see  
That maybe you and I could be  
Is it possible to be logical  
For you to see that we could be? Is it possible for you to see  
That maybe you and I could be?  
Is it possible for you to see  
That maybe you said I could be? Say it's possible for you to see  
That maybe you and I could be  
Is it possible to be logical  
For you to see that we could be?
