

March for Victory

Majesty

Heat of the night caused by flames of war
Burning in the moonlight
When the soldiers unite for a sacred law
And the armies march through lands wideIn the valley the eagles soared
And heard the trumpets reportRide over the mountains, head to the northern sea
Spreading the words like a fountain
And march for victoryA mission ahead, which shall be fulfilled
We secure the borders
Our kingdom is strong when the blood is spilled
Of those who fell before usIn the valley the eagles soared
And heard the trumpets reportRide over the mountains, head to the northern sea
Spreading the words like a fountain
And march for victoryRide over the mountains, head to the northern sea
Spreading the words like a fountain
And march for victory
Desolation messiah
