

Human Zoo

Krome

Look at them all on the inside
Look at them wasting away
Walking around like theyre hypnotized
Look, no bars on the cage This is where theyre living
Same as where theyll die
Nothing lasts forever
Can someone draw the line Do we ever know the reason
Of what lies behind that smile?
Take a seat, enjoy the journey
Just relax, Ill lead you through Through the human zoo
Through the human zoo Well, I hear em cry in the daylight
I hear em scream after dark
A real life jungle atmosphere
Watch em tear each other apart 'Cause this is where theyre living
Same as where theyll die
Stop it now or never
Can someone draw the line Do we ever know the reason
Of what lies behind that smile?
Take a seat, enjoy the journey
Just relax, Ill lead you through Through the human zoo
Through the human zoo Do we ever know the reason
Of what lies behind that smile?
Take a seat, enjoy the journey
Just relax, Ill lead you through Do we ever know the reason
Of what lies behind that smile?
Take a seat, enjoy the journey
Just relax, Ill lead you through
(Relax, Ill lead you through) Through the human zoo
Through the human zoo
Through the human zoo
Through the human zoo
