

House of Cards

[Tyler Shaw](#)

My fire was burning out
My mind was filled with doubt
I long to feel alive
Don't know if I'll survive (eh eh)[Bridge]
But my hope was running low
You appeared out of nowhere
Yeah it was more than an illusion
More that I can ever know[Chorus]
Baby it's magic the way you came around (eh eh)
You caught me before I hit the ground
Yeah something was missing in my house of cards
And all that I needed was the Queen of my heart
It's magic the way you came around (eh eh)You didn't make a sound
My heart was screaming loud
A trick under your sleeve
Yeah you make me believe[Bridge]
But my hope was running low
You appeared out of nowhere
Yeah it was more than an illusion
More that I can ever know[Chorus]
Baby it's magic the way you came around (eh eh)
You caught me before I hit the ground
Yeah something was missing in my house of cards
And all that I needed was the Queen of my heart
It's magic the way you came around (eh eh eh)It's magic the way you came around[Chorus]
Baby it's magic the way you came around (eh eh eh)
You caught me before I hit the ground (eh eh eh)
Yeah something was missing in my house of cards (house of cards)
And all that I needed was the Queen of my heart
It's magic the way you came around (eh eh eh) (x2)
