

# Shine On (Feat. Bun B) [Prod. By Big K.R.I.T.]

## Big K.R.I.T.

Back one more again  
Multi till the sun die  
UGK for Life  
Good Lord [x2]  
It Feels Good to Shine  
Shine  
Let's Go  
By the time you probably heard this  
I was on another verse bitch  
Diamonds in the back with curtains  
Breaking hoes off, I never dose off at my post  
Never disrespect your host, or bite the hand that feed ya  
Cufflinks cold as Ebenezer, my momma probably should of named me caesar  
Cleaner than a baptist preacher  
That use to pimp  
Gator shoes don't make the man  
So primp primp  
So keep on with that, like I won't whip back, around in that lac, that you done seen  
Don't worry about this, I'm serious about this, if you know what I mean  
Shine On  
Shine on  
Don't get me wrong  
Yeah [x3] We shining On  
It's way too strong  
Yeah [x2] Shine On  
Good Lord they know it  
Now [x2] We shining On  
Ain't nobody tripping cause the money already made  
So lately I've been observing  
A lot of these niggas look nervous  
Come on in, don't be ashamed  
Go and steal some game from my sermon  
Cause elevation to celebration, I preach that there  
And that bullshit that they serving y'all, I don't eat that there  
Keep that plate, I got my own  
Don't test my patience, bitch I'm grown  
It ain't much you can tell me, granny ain't already told me  
And she wasn't wrong, yeah we that strong  
So fuck your umbrella, rainy weather, and all that shade

If God ain't want me 2 shine, he never would of let me chop on blades  
So Shine On  
They say man make money, money don't make the man  
But it's a little bit of both  
Cause it will take some change, for you to make some change  
That ain't just some shit I wrote  
Man that's natural fact, and not evolution  
My mind game still evolving  
And I'm gonna keep on rolling like 24s  
And this world just keep revolving  
Good at problem solving, cause I'm good at starting shit in first place  
And it feels so good to be where I'm at man, cause where I was, was the worst place  
But time change, so I keep hustling, boys trying to make my time cease  
But I'm laid back with my dime piece, shining hard like my time piece and it's on  
Shine baby [x3]  
I need you to come on one more time and just shine babe  
Shine Baby [x3]  
I need you to do it like you do and just shine baby  
Shine Baby [x3]  
One more time for all my folk 'm gone shine babe  
Shine Baby [x3]  
They Can't stop me from shining on my own  
(Ain't no shining like we shining [x7])  
(Ain't no shining like we shining babe)
