

Lemonade

[Matt Wertz](#)

I know I barely know ya
But this is feeling good
Not gonna overthink it
Just like I normally would
No sense in tryin' to hide it
Your smile, it says it loud
We know where this is going
What's left to figure out? Ohh, I sing ya like my favorite song
You and me we've got it made
Ohh, how could feeling good be wrong?
Something tells me now It's alright, it's okay
If we just keep it sweet like lemonade
You're so fine, all day
Baby, I'm sweet on you like lemonade
Let's not get complicated
Don't gotta cause a scene
When I'm with you it's easy
Wouldn't wanna change anything
When I got your attention
I get this de ja vu
It's like we've always been
Heading where we're going to Ohh, I sing ya like my favorite song
You and me we've got it made
Ohh, how could feeling good be wrong?
Something tells me now It's alright, it's okay
If we just keep it sweet like lemonade
You're so fine, all day
Baby, I'm sweet on you like lemonade
S-Double U-Double E- to a T
S-Double U-Double E- to a T
S-Double U-Double E- to a T
S-Double U-Double E- to a T Ohh, I sing ya like my favorite song
You and me we've got it made
Ohh, how could feeling good be wrong?
Something tells me now It's alright, it's okay
If we just keep it sweet like lemonade
You're so fine, all day
Baby, I'm sweet on you like lemonade
It's alright, it's okay

If we just keep it sweet like lemonade
You're so fine, all day
Baby, I'm sweet on you like lemonade
