

Turn It Up

Ugly Duckling

Turn it up, turn it up

Turn it up, turn it up

Turn it up, turn it up

Turn it up, turn it up Louder, louder Louder, louder Louder, louder Watch your ears, we're gonna drop the bomb

Plug it in, turn it on, turn it up, come on

Yo Greg, put us in the red, shake a leg

Cause we gotta get it loud enough to wake the dead

Even in a library or an old folks home

We raise the low tone till the speaker's blown

Overloaded to the max, song one to the final track

On ten and eleven is a spinal tap

When you rock just let the fiber optics

Pound so they can knock you down like drop kicks

Your head spinnin, your heartbeat's irregular

Eardrums ringin, so words don't register

It's not classical, jazz or easy listening

This one is to be blasted like nitroglycerine

Don't be a shamed, let the bass sustain

Then press the ? till people complain We gonna..

Turn it up, turn it up

Turn it up, turn it up

Turn it up, turn it up

Turn it up, turn it up Louder, louder Louder, louder Louder, louder (And I like it, and I like it)

(Louder and watch your watts explode)

(Turn your radio up loud) Now there's only way to play it, that's (louder)

Loud enough to turn your brain to clam chowder

We find levels that others overlook

To push and make the system overcook

I had a heavy metal neighbor, it used to be torture

My mother told him turn it down but he just ignored her

So I turned our speakers till they cornered his house

Turn it up to ten and now he's movin out

When I'm in my room I pump the volume

And play it so loud you can hear it on the moon

See, my sound system is world renowned

Until the cops come around, then I turn it down

Cool, it's okay, go 'head and press play

He gave his little speech, now he's drivin away

When the people next door say they heard enough

Pretend you didn't catch that, turn it upWe gonna..

Turn it up, turn it up

Turn it up, turn it up

Turn it up, turn it up

Turn it up, turn it upLouder, louderLouder, louderLouder, louderLOUDER(And I like it, and I like it)

(Loud music for your neighbors)

(Turn your radio up loud)

(And I like it, and I like it)

(The music comes on, strong, slammin)

(Turn your radio up loud)
