

# Can't Be Without You

**Natalia Damini**

I feel so lost  
Dancing alone  
To our tune  
None of them here  
Touch me the way  
That you do  
They just don't know where i'm coming from  
They're vibe just aint the one i'm jumping on  
They just don't know where i'm coming from  
They're vibe aint what i'm on  
I cant feel the beat without you  
I cant dance, cant move my feet without you  
I cant be without you  
And i'd rather just go home than be without you  
No one compares  
No one can move  
Just like you  
I can't see your face  
Standing out there  
In the queue  
They just don't know where i'm coming from  
They're vibe just aint the one i'm jumping on  
They just don't know where i'm coming from  
The vibe aint what i'm on  
I cant feel the beat without you  
I cant dance, cant move my feet without you  
I cant be without you  
And i'd rather just go home than be without you  
There's no message on my phone  
I'm waiting here on my own  
I wanna be having fun  
Watching what's going on  
They just don't know where i'm coming from  
The vibe ain't what i'm on (chorus)
